LOCAL BUSINESS REGISTER

As part of our commitment to supporting local businesses, the Grangegorman Development Agency (GDA) maintains a register of businesses in Dublin 7 and Dublin 1. We use this Local Business Register to identify suitable local providers of supplies and services to the GDA. We also make the Register available to the Dublin Institute of Technology (DIT) and to contractors working on the Grangegorman Development to encourage them to support local businesses where possible.

If you would like your business included in the Local Business Register (free of charge), please complete the attached registration form. Your details will be stored and shared in compliance with Data Protection Law, and will be provided to DIT and to Grangegorman Development contractors. Our intention is to maintain and update the Local Business Register throughout the life of the GDA.

Business name: _____

Business address: _____
