

# Terry Prendergast MIPI

## Jury Citation:

"This year's awards were remarkable for the variety of the types of plans and projects submitted for consideration by the jury, demonstrating how the profession has expanded to encompass a multidisciplinary approach to our towns, cities and countryside and the opportunities that exist going forward.

As highlighted by the jury there were particularly impressive projects that demonstrate where the planner played a significant role in very large and multi phased projects such as the Grangegorman Planning Scheme, and in particular the extraordinary work of the Grangegorman Development Agency planning team in leading the planning element of this significant project is to be commended.

In recognition of the non traditional role of the planner who has been key to the development of a planning strategy for this SDZ, the delivery of the project to date and the safeguarding of the future success of the project, this year's President's Choice awards is to be awarded to Terry Prendergast, senior planner, Grangegorman Development Agency. "
