

**April 2014**

**Re: Works in your Area – Site Infrastructure & Public Realm Works**

Dear Resident,

On behalf of Grangegorman Development Agency & Roadbridge, we would like to inform you that, as part of the above Project, necessary works are required in your area. These works shall be carried out on Grangegorman Road Lower and will be within the western footpath from the Mortuary Building opposite the Clock Tower Arch to No 20 Grangegorman Villas West to. See plan on reverse side.

The nature of these works is to install a new ESB duct within the footpath to facilitate diversion of cables. The length of duct to be installed is in region of 200m, which shall be carried out in 50mm sections. The duration for this installation shall be approximately 3 weeks with works commencing on Wednesday 23<sup>rd</sup> April 2014.

Under current T2 Permit Granted by Dublin City Council the permitted working hours are 8am to 11pm. Sierra Support Group Services who shall carry out these works on our behalf, intend working from 8am to 6pm.

We do not envisage working beyond these intended times, however it may be necessary in the event of unforeseen circumstances that might arise during excavations and uncovering unknown services in the footpath.

In order to carry out these works it shall be necessary to temporarily close various sections of the western footpath of Grangegorman Road Lower at different times throughout the construction phase. This will mean there will be traffic management systems put in place which may cause some disruption. We hope to keep this to an absolute minimum.

We would like to apologise in advance for any inconvenience that this may cause and we will endeavour to keep this disruption to a minimum, and every effort shall be made to shorten the duration.

Should you have any queries in relation to these works, you may contact Roadbridge on 087 3778984 or the GDA on 01 8676070. For out of hours queries please contact 087 178 8749.

Yours Faithfully,

Roadbridge & Grangegorman Development Agency

Location of proposed ESB Duct in western footpath of Grangegorman Road Lower. The work zone outlined in blue cloud. The works shall be carried out in approximately four 50m sections.
